Quayle

1. This application is in condition for allowance except for the following formal matters:
new oath or declaration, trademark use and amended title as cited below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration in a continuation-in-part application filed under the conditions specified in 35 U.S.C. 120 which discloses and claims subject matter in addition to that disclosed in the prior co-pending application, acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application. The change in cited continuity at line 1 of instant specification suggests new matter contained herein is not present in prior parent applications (08497662, 08981882, PCT/US96/10463 and 09107031), thus requiring new

oath or declaration is appropriate. Alternatively, a new oath may further be required based on either subject matter not originally claimed (with respect to continuing prosecution) or not originally embraced in statement of invention. See MPEP 602 - 605.

Specification

3. The use of the trademark Krazy Keno (fig. 2) has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

4. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. The following title is suggested: --Electronic Gaming Apparatus Having Authenticating Data Sets-- or similar. 'Improved' is not descriptive.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. A. Sager whose telephone number is (703) 308-0785. The examiner can normally be reached on T-F from 0700 to 1700. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. S. Tom Hughes, can be reached on (703) 308-1806. The fax phone number for this Group is (703) 872-9303. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1148.
